

# We Come Into This Place

Written by Steve Pruitt

G            C            D  
You are the reason we come here  
G            C            D  
Your presence fills our hearts desire  
Am                            G  
Inhabit the praises of your people  
C                    Am            D  
Dwell here and manifest your power

G            D  
We come into this place  
C                            D  
To praise the name of Jesus  
G            D  
We come into this place  
C                            D  
To lift your name on high  
G            D    C                    D  
Your name alone is high above all others  
C                    D                    C-G  
We love you and bless you with our praise
